

Frontier Quest

Irish Exhibit

A special bird lives here. What type and how was it useful on the farm?

In Ireland people used a *trencher* like we use plates today. What is this made from and why?

What workshop would you find this tool? What is it called? What is its purpose?

The Irish burned peat in their fireplaces as a way to heat their homes. They would use this tool. See if you can find out what it is called and where peat comes from.
